

IEEE PerCom 2008: Google PhD Forum – March 17, 2008 (List of Accepted Papers)

PhDForum01: Habib M. Ammari, Geographic Forwarding in Duty-Cycled Connected k-Covered Wireless Sensor Networks

PhDForum02: Yee Him Cheung, Pervasive Wireless Sensor Networks that supports fire-fighters

PhDForum03: Pradip De, On Broadcast Based Communication Protocols in a Pervasive Computing Network

PhDForum04: Dheeraj K Klair, A Spatially Aware RFID-Enhanced Wireless Sensor Network

PhDForum05: Ioannis Krontiris, Security in Wireless Sensor Networks

PhDForum06: Byungjoo Lee, Effective use of Channel Resources in Cognitive Radio

PhDForum07: Mo Li, Towards the Applicability of Wireless Sensor Networks

PhDForum08: Claudia Rinaldi, Advanced Modeling for Wireless Communications and Distributed Control over Wireless Networks

PhDForum09: Nirmalya Roy, Context-Aware Learning, Prediction and Resource Management in Smart Pervasive Environments

PhDForum10: Flora D Salim, A Generic and Real – Time Collision Warning and Avoidance System in a Ubiquitous Intersection Environment

PhDForum11: Limbran Sampebatu, Ratio Aided Decision for Clipping Noise Mitigation of Uncoded CI/OFDM System

PhDForum12: Chang Xu, Decentralized Constraint Checking for Pervasive Computing

PhDForum13: Zhe Yang, Evaluation of Broadband Services from High Altitude Platforms and Business Model Design
